Because It's Chris'mus ••••••••••••••

ES' because it's Chris'mus I go smilin' on my way, An' jes' because it's Chris'mus I am kindly-like an' gay. I'm full o' human kindness An' as thoughtful as can be; I develop total blindness

To the faults I used to see.

Jes' because it's Chris'mus I forgot that I'm depressed, An' I say whatever happens Is, by all means, for the best. An' my thoughts for every brother That I meet are sweet an' good, An' I wouldn't skin a rival Even if I thought I could.

Jes' because it's Chris'mus I don't think about my debts, An' the biggest of my worries Bring to me no vain regrets. I am sort o' tuned to gladness, An' I go upon my way As though nothin' ever happened

Worth a minute of dismay.

Now, my burdens are no lighter When I come to Chris'mus day, An' my troubles are no fewer, An' no smoother is my way, Than they were in bleak November Yet I seem to think 'em so.

An' jes' because it's Chris'mus

I am smilin' as I go.

If I can laugh at Chris'mus An' cheer my fellow men Why can't I laugh in April, Why not be merry then? If I can bear my burdens When it's Chris'mus with a smile Why can't I face my troubles In the same way all the while?

Why must I go repinin' An' whimperin' along An' blind to all men's goodness, Seein' only what is wrong, Till the year is slippin' from me, An' then suddenly declare When it gets around to Chris'mus That there's goodness everywhere? -Detroit Free Press

CHRISTMAS IN SYRIA.

THE Rev. Dr. D. G. Howie, the well known Palestine missionary, describes a Christmas celebration at midnight in a mountain village in Syria:

"From different directions men, women and children bearing their flickering hand lanterns wound their way through the muddy, slushy, crooked and dark lanes under the falling sleet and over a thin layer of snow already on the ground. Men and boys entered by a huge door in the middle of the south wall and occupied the body of the church; women and girls entered by another south door and stationed themselves in the western division of the immense building, which is screened from the other divisions by wooden latticework. All stood erect, motionless, in the cold, comfortless and very dimly lighted and too airy building.

"A few had umbrellas, but waterproofs were unknown, and consequently many of them must have stood in partly wet clothes. The question did occur to me at the time as to whether many British people could be drawn out of their beds, out of their homes, at that hour of night in that kind of weather, fasting, to attend Christmas service amid such dismal, comfortless surroundings."-Tit-Bits.
